

**“Nancey was the warm, supportive, nurturing force I so craved throughout my pregnancy—and which took on even greater importance as we prepared to welcome our baby at the height of a global pandemic!** Our visits were the highlight of my week, where I learned about my baby but even more so about myself and what I truly wanted and needed from the birth experience. Nancey’s unwavering confidence in my abilities helped prepare me for labor without fear—a labor I actually looked forward to—and to truly experience the birth of my dreams!” — ANNA AND TIM
